KAI MEDICAL: NAME CHANGE REFLECTS HEALTH CARE FOCUS

HONOLULU, HAWAII, March 3, 2010 -- Kai Sensors, an award-winning developer of wireless, non-contact vital signs measurement and monitoring products, including the recently FDA cleared Kai RSpot, today announced that it is changing its name to Kai Medical.

“We believe that the name Kai Medical more accurately represents our focus, which is to bring ground-breaking medical devices to market.” said Kai Medical CEO Andrea Yuen.

The legal structure of Kai Medical, Inc. will remain unchanged.

About Kai Medical, Inc.

Headquartered in Honolulu, Hawaii, Kai Medical develops medical devices designed to measure and monitor vital signs wirelessly, with no contact, and from a distance. Kai Medical’s first product, the Kai Medical Non-Contact Respiratory Rate Spot Check, also called the Kai RSpot, is the first and only non-contact respiratory measurement device to receive U.S. Food and Drug Administration (FDA) 510(k) clearance.

The company has received the 2008 Frost & Sullivan Technology Innovation of the Year Award, and is working with leading companies to commercialize its non-contact wireless monitoring products. For more information, see www.KaiMedical.com.
