For Immediate Release

KAI MEDICAL NAMES DUSTIN SHINDO AS CHIEF EXECUTIVE OFFICER

HONOLULU, HAWAII, May 6, 2010 -- Kai Medical, an award-winning developer of wireless, non-contact vital signs measurement and monitoring products, including the FDA510 (k) cleared Kai Spot, today announced that Dustin Shindo has been named President and Chief Executive Officer of the Company.

Mr. Shindo has served as Chairman of the Board since he founded Kai Medical in 2006 as Kai Technologies. He will retain that position as he accepts his new title and responsibilities. Mr. Shindo serves as an Advisor to Hoku Corporation (NASDAQ: HOKU). He sits on several boards, including Hawaii Nui Brewing Company and Mehana Tea Company (formerly Mehana Brewing Company). He is also Founder and CEO of Savingspoint and Mehana Capital.

Mr. Shindo founded Hoku Corporation, formerly Hoku Scientific in 2001, and led it to an IPO only four years later while serving as it Chairman, President, and Chief Executive Officer. At Hoku, Dustin successfully partnered with global customers, signing contracts totaling \$2 billion.

Mr. Shindo will be succeeding Andrea Yuen, who has served as CEO of Kai Medical since 2007. She will be the Company's Chief Strategy Officer and continue to be part of the executive team.

"I am excited about my expanded leadership role at a ground-breaking medical device company. As Chairman and CEO, I expect to lead Kai Medical through the next stage of its growth," said Mr. Shindo. "I am very grateful for the exemplary job that Andrea Yuen has done. I am looking forward to working with her going forward."

"We are happy to add Mr. Shindo's expertise to our team. His experience and skills will help us deliver on our commitment to build shareholder value," said Ms. Yuen.

About Kai Medical, Inc.

Headquartered in Honolulu, Hawaii, Kai Medical develops medical devices designed to measure and monitor vital signs wirelessly, with no contact, and from a distance. Kai Medical's first product, the Kai Medical Non-Contact Respiratory Rate Spot Check, also called the Kai Spot, is the first and only non-contact respiratory measurement device to receive U.S. Food and Drug Administration (FDA) 510(k) clearance.
