### **KAI MEDICAL ANNOUNCES BOB NAKATA BEING APPOINTED TO THE KAI BOARD OF DIRECTORS**

HONOLULU, HAWAII, August 15, 2011 –Kai Medical today announced that its CEO, Mr. Robert Nakata, has been appointed to the Board of Directors for the company. Kai Medical is an award-winning developer of wireless, non-contact vital signs measurement and monitoring products.

“We’re pleased to have Bob join the Board. His hard work and dedication with the company has allowed Kai Medical to continue to operate in good health and pursue ambitious goals,” said Dustin Shindo, Chairman of the Board of Directors. “He is an asset to the team and has continued to add value.”

“I look forward to serving on this Board alongside such distinguished Board members such as Dustin Shindo and Michael Korver,” said Mr. Nakata. “I believe that my experience and knowledge of strategic development and implementation of innovative wireless technologies in larger markets will bring an immediate value to the Board and its members.”

#### **About Bob Nakata**

Mr. Nakata has managed the strategic direction and operations of the company since becoming CEO in March, where he previously served as the Chief Technology Officer of the company. Mr. Nakata is a 26 year veteran of Silicon Valley startups and public firms. Formerly, Bob was a Vice President at VeriFone, where he led a product development team for the industry leader with \$900M in annual revenue. Bob had previously served in executive capacities at Interwave Communications and GWCom, pioneers in the wireless industry, and also served as a wireless technology consultant for venture capital firms in Silicon Valley. Bob has extensive international experience, having managed development teams and product launches in Asia and Europe. Bob has a MSEE/CS and a BSEE from the Massachusetts Institute of Technology and an M.B.A. from The Wharton School of Business.

#### **About Kai Medical, Inc.**

Headquartered in Honolulu, Hawaii, Kai Medical develops medical devices designed to measure and monitor vital signs wirelessly, with no contact, and from a distance. Kai Medical’s latest two products have received the CE mark and are available for sale in Europe and other countries that recognize the CE mark. The first new product referred to as the Kai Spot (v 2.1) is used to measure a patient’s point-in-time respiratory rate (the previous products being the Kai Spot (v 1.0) and Kai Spot (v 2.0) which received U.S. Food and Drug Administration (FDA) 510(k) clearance). The second new product is referred to as the Kai Continuous and is intended for continuous monitoring and measurement of respiratory rate and history.
